

Student Grants Guidelines 2023

Students attending the Graphene Week 2023 and submitting an abstract (as first or second authors) may apply for student grants from the Graphene Flagship. Please read the application requirements closely and follow the instructions (see below). Incomplete or not eligible applications will not receive funding.

The purpose of this support programme is to encourage and promote the professional development of students in the field. It is considered as an important tool in fostering the next generation of graphene researchers and a key element in the continuous renewal of the flagship community.

Eligible students may apply to receive a **300 Euros discount** of the delegates' fee. Only early-bird and normal applications will be considered for the Graphene Week 2023 grant.

Student grants are available for a limited number of students (**100**) planning to attend Graphene Week 2023. Applications for student grants are made through the event website.

Who can apply?

Please be aware of the following eligibility criteria for the student grant:

- An abstract is presented - an abstract, clearly showing the author(s) name(s) and affiliation(s), must be submitted into the abstract form. Second author applicants must include a statement about their contribution to the project in their application. Its contents are in line with the topic description in the call.
- Student (Bachelor, MSc or PhD) who are involved in graphene and related materials research activities.
- Open to all nationalities (however, the candidate needs to work in a research institution/organisation).
- Fluent in English.
- Gender balance is considered in the evaluation.

Application procedure

1. Apply for the grant by submitting your application [via this link](#)
2. Application and supporting documents are written/presented in English.
3. Students entitled to student grants will be notified via email after the assessment of their application.
4. The selection process will be done by the Graphene Week Chair and the Graphene Week organisers, based on the abstract content (there are 100 student grants available).
5. If you received the Graphene Flagship confirmation email that you are entitled to receive a Graphene Week Student Grant, please follow the registration procedure described in the confirmation mail (the registration fee will be reduced by 300 Euros).
6. Register and check if you received the confirmation with the correct details of your booking.

Notification of results

Students entitled to student grants will be notified via email after the assessment of their application. Please forward questions regarding your application to: gw@graphene-flagship.eu
